

Complete Control.

Be more embedded and more effective
SupplyPoint allows you to take complete control of your inventory.

Why Vending?

Distributors

Become indispensable.

As a distributor, your goal is to help yourself by helping your customer. You want to be a part of the team, not an outsider, so that you can provide top-quality service.

SupplyPoint helps you embed with your customer by providing you with the broadest possible picture of their inventory usage, allowing you to identify areas where you can help them improve.

Organizations

Knowledge is power.

What your organization doesn't know can lead to disaster. An incomplete picture of your inventory can lead to shortages, overages, wasted time, and, in the worst cases, work stoppages.

SupplyPoint gives you Total Inventory Control by providing complete, reliable, and accurate information, so you always know what you have and where you have it.

Workers

What you need when you need it.

Your employees want to do great work and will do whatever it takes to keep going. When supplies are unreliable, it can lead to stockpiles at individual work areas, which in turn, can lead to shortages and stoppages elsewhere.

SupplyPoint gives your employees the peace of mind to know that when they need something to do great work, it will be waiting there for them.

28-Level

With a 25-year track record and unmatched versatility, the SupplyPoint 28-Level vending machine is a proven and reliable inventory management solution.

Product Overview

Constructed from high-gauge steel in SupplyPoint's Durham, NC and Rugby, UK facilities, the 28-Level Vending Machine is as tough as they come and will keep your inventory secure.

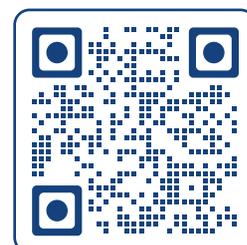

Easy to configure, the 28-Level Vending Machine supports 20 different individually indexable drawers and 3 different cupboard modules. As your needs evolve, you'll find the 28-Level Vending Machine easily reconfigurable to fit your changing environment.

With up to 12 compartments per drawer location and with the ability to connect up to ten units on a single computer, the 28-Level vending machines offers you up to 13,353 individual spaces for items.

Using the VendTel User Interface, the 28-Level vending machine can stand alone, join with other 28-Level units, or join in installations mixed in with other SupplyPoint vending machines to serve your inventory control needs.

SPECIFICATIONS	
MAXIMUM COMPARTMENTS	1,345 per frame
UNIT HEIGHT	78.7 in / 2000 mm
UNIT DEPTH	20 in / 510 mm
UNIT WIDTH	21.5 in / 546 mm

Modulo

With its denser drawer arrangements, Modulo offers a lower-cost drawer solution that still provides the ease-of-use SupplyPoint is known for.

Product Overview

Combining drawers made of high-impact plastic with high-gauge steel frames constructed in SupplyPoint facilities, the Modulo Vending Machine offers high-density storage in individually-indexable drawers.

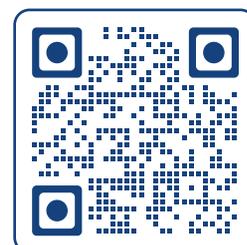

Mini Modulo allows you the option of a modular solution by giving you up to 36 drawers in a chassis that can be placed on a table, but can also be expanded by connection to other units.

With up to 12 compartments per drawer location and with the ability to connect up to ten units on a single computer, the Modulo Vending Machines offers you up to 21,600 individual spaces for items.

Using the VendTel User Interface, the Modulo Vending Machine can stand alone, join with other Modulo units, or join in installations mixed in with other SupplyPoint Vending Machines to serve your inventory control needs.

	MIN	MAX
UNIT WIDTH	21.5 in / 546 mm	30.16 in / 766 mm

Rotopoint

With its innovative drum design, Rotopoint lets you spin up the item you need. Configurable column widths allow flexible storage of a wide array of items.

Product Overview

Ideal for quick access to PPE, MRO, and trackable assets, each Rotopoint frame's steel drum has a capacity of 661lbs/300kgs and can be divided into as many as 702 compartments.

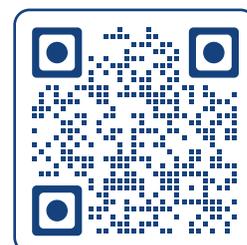

Available with 5, 7, or 13 hatches and divisible into as many as 54 columns, up to ten Rotopoint units can be controlled by a single computer, providing a maximum of 7,020 individual compartments.

With its robust steel construction, Rotopoint will keep your Items securely locked away until they are needed, at which point Rotopoint will bring you what you ask for.

Using the VendTel User Interface, the Rotopoint Vending Machine can stand alone, join with other Rotopoint units, or join in installations mixed in with other SupplyPoint Vending Machines to serve your inventory control needs.

SPECIFICATIONS	
MAXIMUM COMPARTMENTS	702 per frame
UNIT HEIGHT	79.13 in / 2010 mm
UNIT DEPTH	40.55 in / 1030 mm
UNIT WIDTH	40.55 in / 1030

RotoFlex

With all-new electronics and the promise of unparalleled flexibility in a carousel unit, RotoFlex offers the widest array of storage spaces in the smallest footprint. With horizontal and vertical configurability, RotoFlex can meet a variety of needs simply.

Product Overview

Ideal for quick access to PPE, MRO, small hand tools, spares, and much more, each RotoFlex's steel drum has a maximum capacity of 200kgs/441lbs and can be divided into as many as 507 compartments. All in a unit that will fit through a standard doorway.

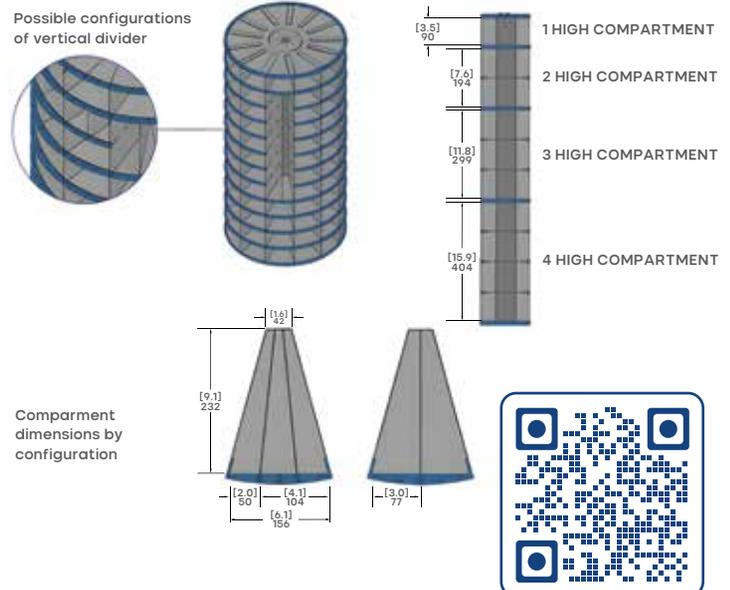

The RotoFlex drum consists of 13 fixed columns that can be divided into 4 different vertical sizes and 4 different horizontal sizes by adding or removing (without the need for tools) horizontal shelves or vertical dividers. Each level and column can contain different compartment sizes. The door hatches can be opened individually or in tandem with adjacent hatches to access compartments of variable height.

With its robust steel construction, RotoFlex offers the secure, compartment-level storage SupplyPoint is known for, while its flexibility allows precise configuration to suit your needs. It is the next evolutionary step of the carousel unit.

Using the VendTel User Interface, the RotoFlex Vending Machine can stand alone, join with other RotoFlex units, or join in installations mixed in with other SupplyPoint Vending Machines to serve your inventory control needs.

SPECIFICATIONS	
MAXIMUM COMPARTMENTS	507 per frame
UNIT HEIGHT	72.91 in/1852mm
UNIT DEPTH	27.87 in/708mm
UNIT WIDTH	28.66 in/728mm

Lockers

Ideally suited for the storage of large items, while also having the ability to manage smaller items, SupplyPoint's Locker products offer a flexible and low-cost inventory management solution.

Product Overview

Available in steel-front models, which maximize security, or clear-front models, which prioritize visibility, up to ten Locker frames can be joined together for a maximum of up to 270 compartments. Lockers can be converted into charging stations using UL/CE certified power options.

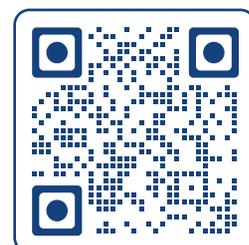

LockerSense combines the storage capacity of the medium SupplyPoint Locker with a high-resolution scale, allowing you to track the movement of items as small as 0.5 grams or as large as 8 kilograms.

LockerFlex increases the versatility of the Locker frame by adding removable shelves, allowing for the creation of custom locker sizes with heights that combine up to nine smaller Locker compartments.

Using the VendTel User Interface, the SupplyPoint's Locker units can stand alone, join with other Locker units, or join in installations mixed in with other SupplyPoint Vending Machines to serve your inventory control needs.

SPECIFICATIONS

MAXIMUM COMPARTMENTS	27 per frame
UNIT HEIGHT	79.92 in / 2030 mm
UNIT DEPTH	19.68 in / 500 mm
UNIT WIDTH	Up to 43.03 in / 1093 mm

ECTC

The Electronically Controlled Tool Cabinet marries SupplyPoint's access control to an existing tool cabinet, providing an entry-level product suitable for multiple purposes.

Product Overview

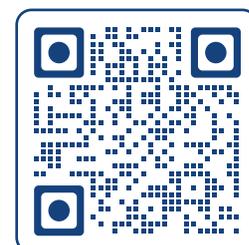

Whether you're controlling items for a cell or for a tool crib, ECTC offers drawer-level security capable of managing both large and small items.

Multiple frame heights and three drawer types that can be subdivided into as many as 48 easily-reconfigured compartments per drawer offer a flexible solution for your inventory management needs.

Compartment-level control can be attained through the installation of up to 36 LIDs within one or more ECTC drawers, making it a perfect solution for automotive or medical applications.

Using the VendTel User Interface, the ECTC Vending Machine can stand alone, join with other ECTC units, or join in installations mixed in with other SupplyPoint Vending Machines to serve your inventory control needs.
