

Less Walking. More Productivity.

Newcastle Systems' mobile powered workstations bring printing, labeling, barcode scanning, mobile apps, and mobile computing wherever you need them.

With mobile powered workstations from Newcastle Systems, you can eliminate back-and-forth trips to computers and printers, and you can save time and labor in receiving, picking, shipping, and inventory. Plus, your associates will walk far fewer miles every day, making their jobs easier and more appealing while you maximize efficiency and minimize costs.

- Easy integration with peripherals and accessories.
- Swap power packs in seconds for uninterrupted work.
- Optional slide-out printer tray for easier access.
- Slot system for quick, easy adjustment and customization.
- Lockable, oversized casters for superior mobility and stability.

Workstation Solutions

WIRELESS

Mobile Powered Wireless Workstation

Fully wireless mobile powered workstation including Zebra's ZEC500 Enterprise Computer and Workstation Connect software.

- No need for thin clients, docks, or multiple logins
- Supports peripherals, printers, and Bluetooth devices
- Mobile desktop-style computing plus handheld integration
- Saves time in receiving, picking, shipping, and inventory
- Operates with ultra-low energy requirements

HEAVY-DUTY

PC Series Mobile Powered Workstation

Designed for demanding environments, with extra space and load capacity.

- Ruggedly supports up to 400 lbs. of equipment
- Specialized casters for precise and easy movement
- Fits large monitors, printers, supplies, inventory and more
- 30" or 48" tabletop with room for laptops and paperwork
- Optional folding shelf for expanded 66" x 24" workspace
- Lightweight lithium or SLA battery options

MID-RANGE

NB Series Mobile Powered Workstation

The workhorse cart with a rugged design and flexible configurations to maximize mobility and efficiency for a wide range of warehouse, retail and logistics workflows.

- Rechargeable power to seamlessly run up to 4 devices
- Compact footprint with swivel casters for easy mobility
- Accommodates large monitors, printers, scales, and more
- Large accessory ecosystem for versatility and customization
- Available with lightweight lithium or SLA batteries
- Available in 18-inch and 24-inch widths

ENTRY-LEVEL

EcoCart Series Mobile Powered Workstation

Compact and lightweight, the EcoCart is ideal for basic tasks and smaller equipment. It powers Zebra rugged tablets, industrial printer and barcode scanner for 8+ hours per shift.

- Excellent price-to-performance ratio
- Reduces labor costs by up to \$10K per station per year
- Cuts labeling errors by 90%+
- ROI in as little as 3 months

Bring a Workstation to Your Work and Maximize Efficiency.
