# QC Series Mobile Powered Workstation

**Powers laptops, tablets, thin clients, thermal printers, scanners and more!**

## Outstanding Benefits:

- **Improving Processes** - Designed to reduce costly worker motion, product transportation and touches on the shop or warehouse floor, resulting in significant productivity gains
- **QA on the Fly** - No need to disrupt production as testing can now be performed right at the product
- **Vast Storage Capabilities** - Ideal for tools, calipers and other testing/inspection devices
